

HLP New Product Information Sheet.

HLP-IR160

Model: HLP-IR160

This fully functional industrial standard infra-red thermometer has the features of the food grade models without the price tag. This compact model will fit into the pocket, it is the popular 'gun style' with the trigger on the front of the unit. Has a laser pointer to give an indication of where the unit is measuring the temperature. The wide temperature range makes it suitable for many applications in: **Electrical servicing and installation, Motor mechanic, Aviation mechanics, Agriculture - Planting and Green keeping, Wine making, Road base application, Concrete laying, Plumbing, Motor racing (brake, tyre, cylinder temperatures, etc), Model car / plane / helicopters use, etc, etc, etc.** Thousands of uses!

The perfect temperature tool for professionals and hobbyists alike - and at a very attractive price!
